

SHAHRIAR TAHMID

Full Stack Engineer

shahriarxproximalog1@gmail.com | [Github](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Results-driven Backend Engineer and Software Engineering student at Daffodil International University with a strong foundation in building scalable backend systems using Java and Spring Boot. Skilled in designing REST APIs, optimizing relational databases, and delivering clean, maintainable code. Proficient in Docker, Git/GitHub, and PostgreSQL. A competitive programmer with a track record of achievement, including a Top 10 finish at the DIU Code Trap Programming Contest. Passionate about clean architecture, continuous learning, and leveraging technology to solve real-world problems.

WORK EXPERIENCE

Backend Engineer (Intern)

2025

DriveTrain, USA

- Engineered RESTful APIs with Java and Spring Boot to support core business operations including user management, product handling, and transaction processing
- Architected and optimized PostgreSQL schemas, reducing query overhead through strategic indexing and query tuning
- Hardened data security by implementing encrypted storage and automated backup procedures, ensuring system reliability and integrity
- Bridged backend services with frontend components, contributing to a cohesive and functional full-stack delivery

Backend Engineer (Intern)

2024-2025

ICT Strypes, USA

- Contributed to the full software development lifecycle — from requirements analysis to deployment — under the mentorship of senior engineers
- Identified and resolved critical defects through systematic debugging, improving overall codebase stability
- Collaborated with cross-functional teams including project managers and QA engineers to consistently meet project milestones
- Proactively adopted emerging best practices and industry standards, demonstrating a strong commitment to professional growth

EDUCATION

Bachelor of Science in Software Engineering

Daffodil International University

- CGPA: 3.94

July 2024 - Present

Higher Secondary Certificate

Parbatipur Govt. College

- Final CGPA: 5.00

2020-2022

SKILLS

- Languages: C/C++, Java, JavaScript
- Backend: Spring Boot, React, Node.js
- Database: PostgreSQL, Oracle, MySQL
- Containerization: Docker
- Build Automation: Maven
- CI/CD: Git, GitHub
